Remoticom Smart Crowd **Crowd control** **using smart** **sensor technology.**

Remoticom Smart Crowd provides smart crowd control via sensor technology in stores and at themeparks, fun fairs, events and festivals. With this sensor technology we make it possible to let you know which cash desk, aisle, bar or stage is the busiest. We can also make clear which product, attraction or artist is doing great or give you handles in case of emergency.

Remoticom is an expert in the field of sensor technology. We develop and produce leading solutions for a Smart Planet. By using state-of-the-art techniques, smart partnerships and a passionate team, we assist you in the transition to a future proof planet. We aim for a smart planet, made for you.

01. We take care of Smart Crowd management and Smart Crowd security solutions

02. We are thinkers and creators

03. We give you a safe, smart and controlled crowd.

SOLUTIONS.

SECURITY.

Our products offer greater efficiency and certainty in the field of security. Which is especially necessary in places where crowd clusters can arise, such as events and shopping malls.

- 01. Realtime insights**
- 02. Safer work conditions**
- 03. None to crowded areas anymore**
- 04. Lower employee costs**
- 05. See total visitors in area**

HEATMAP.

Crowded places can lead to chaos. We offer order and efficiency through our heatmap solutions. Using realtime heatmaps we can show you how your crowd is moving and quickly take action on changes.

Stores can earn more revenue by placing their products at the right spot. Using our heatmap solutions we can show you how your shop visitors are moving and how you can quickly make more profit.

- 01. See problems before they exist**
- 02. Realtime sensor technology**
- 03. See busy areas**
- 04. See busiest artists**
- 05. See crowd movement**

SOLUTIONS.

FOOD & BEVERAGE.

By means of our products, Food and Beverage booths can effectively prepare for crowdpeaks. That way the turnover increases and customers spend less time waiting in line. Smiles guaranteed!

- 01. No rows**
- 02. Happier clients**
- 03. No low stocks**
- 04. Lower employee costs**
- 05. Higher profit**

LINE-UP.

Using our Line-up solutions we make it possible for you to see bar revenue and crowd streams regarding dj's and artists so you know which dj brings you the best.

- 01. Value for money insights**
- 02. Realtime F&B insights**
- 03. Line-up analysis**
- 04. Better line-up picking**
- 05. Faster artist payback**

SOLUTIONS.

PROFIT.

With our products and services you can increase profits by measuring crowd movements. This way you can arrange your staff planning, line-ups and shops more efficiently.

- 01. See realtime profit improvement**
- 02. Safer work conditions**
- 03. See F&B sales**
- 04. See average waiting time**

FUN.

With our products and services you can increase profits by measuring crowd movements. This way you can arrange your staff planning, line-ups and shops more efficiently.

- 01. Find your friends**
- 02. Find the best views**
- 03. Find a quiet area**
- 04. Find the fastest route**
- 05. Avoid waiting time**

SERVICE.

DATA ANALYSIS.

In cooperation with our team of Data Analysts your questions are answered within a short period of time.

- 01. Tips for your line up**
- 02. Tips for better walkway guiding**
- 03. Tips for your security**
- 04. Tips for more profit**
- 05. Tips for your security**

INSTALLATION.

Using our installation team your smart sensor will be installed in the right place for optimal use and control. Installation includes setting up filters and rules.

- 01. Configure requested filters**
- 02. Testing each sensor**
- 03. Install the sensors**
- 04. Configure the API's**
- 05. Avoid waiting time**
